

Are you breastfeeding?

Interested in research on human lactation?

Participants needed!

Help researchers understand what milk can teach us about the mammary gland

Who can participate?

- Lactating women 2 weeks – 1 year postpartum
- Providing at least half of infant feedings with breastmilk (not including complementary foods)
- Age 18-45 years old
- Willing to provide at least 3 oz fresh breastmilk (breastpump and pumping space not provided)

In this study

- Participants will schedule milk drop-off with study team
- \$25 will be provided for each milk collection (maximum of 20 samples/participant)
